REPORTS UP TO OCTOBER 12.

Extent of the Yakushan Battle-A Flerce Fight at Sea-Vessels Destroyed by Torpedoes-Dastardly Ontrages Perpetrated Upon Foreigners-Japan Wants No Foreign Interference With Her l'lans.

VICTORIA, B. C., Oet. 25.—The steamship Empress of Japan has brought the Oriental advices to Oct. 12, as follows: All Japan is in a fever of excitement

awaiting news from General Oyama's expedition which is supposed to be directed toward some point on the Chinese coast within the Gulf of Pci-Chi-Li.

Reports of landings at Port Arthur, Wei-Hai-Wei and other localities are already circulating in Japanese newspapers. From the beginning the Japanese anthorities have been determined to allew no inaccurate records of actual

events to go forth.

Admiral Ito's official report of the battle near Tai-Kosan harbor has been published. It is extremely exuberant in tone and is filled with eulogies of the spirit and fortitude displayed by offleers and men.

The Chinese loss in the battle of Yakushan was, killed 700, wounded 252. Two different accounts are published in Yokohama papers with reference to the Chinese troops having crected six forts on the southern bank of the river and 14 on the northern. They have about 80 gnus in position and the force assembled to dispute the passage of the Japanese army into Marchuria is about 70, 000. All the treeps that escaped frem Ping-Yang are on the northern bank. Other reports says that the Chinese forces only number 9,000 on the nerthern bank and a similar number on the southern, and that but eight forts are built so far, but that on the appearance of the Japanese troops they hastily started strengthening their position, evidently intending to act strictly on the defensive.

The Niv Pen publishes an account of how badly the man, who steed so high, an encounter between the Maya Kou is affected by his crimes. The letter is and four Chinese ships in the Yellow as follows: noitering. A fierce fight ensued, in which the Maya Keu sank one of her opponents and then escaped in a more or less injured condition. As the Maya Kou is a gunboat of but 615 tons, the engagement is regarded as a niyth.

Prince Kemata and Count Kawamara have left for Corea. The prince is a field. I expect to commit suicide any minlieutenant in the navy, and has been recalled from Europe to resume his post on the Naniawa Kau. Count Kawamnra is a retired vice admiral and it is rumored will take command of the squadron in Corean waters,

Navigation in the Shihtousha channel is now very dangerous, 600 submarine mines having been laid. A large junk struck a torpedo recently, and both it and a fishing boat were blown up and the crews destroyed. A Chinese ganbeat was also destroyed in the same

The Japanese government has at length consented to allow reporters to accempany its fleet, but only one represeutative is allowed per ship.

The Japanese government contemplates constructing a unval post at Hamada-Sekishu, situated just opposite the southern limit of Corea.

Hespital arrangements at Hiroshima are very extensive and complete, aud the wounded Chinese prisoners are treated with the same care as Japanese. So much so that many Chinese patients show reluctance to leave the hospital and manifest very little patriotic feeling, their chief concern being their

arrears of pay. Sei Gi Un has been appointed to rep-

resent Corea in Japan. A zealous correspondent states that a plet, in which partisans of the Tai-Loon-Kun were implicated, thas been discovered. The conspirators intended to raise to the throne Li Yo Shu, grandson of the Tai Loon Kun, and drive out of Corea the pro-Japanese statement. The plot also included un nttack on the Japanese residents in

Fierce persecutions have broken out in the two southern provinces of Corea against the native Christians. This is headed by Tonghaks, allies of the Chlnese in Corea. Already a large number of native converts have been murdered and many robbed and beaten. Pero Jezeau, a French missionary, was captured by General Yeh while on the wny to Seoul. He and an attendant were interrogated and beaten by the soldiers in the presence of General Yeh. They were afterward seized by six soldiers and hoisted off the ground by their While in this position Jozeau was stabled with a bayonet in the side by one of the soldiers. The prisoners were then thrown on their faces and their heads literally backed off. General Yeli and staff complacently regarded the whole transaction and then went away without a \ rd, leaving the two head-less bodies on the bank of the river. So great is the terror of the Toughaks that it was 'wo days before the native Christians ventured to bury the bodies.

At Pekin and Tien-Tsin great fear is felt by the foreign residents of an attack by natives. The latter appear to naval battle three French and four Rus. died a few minntes later.

sian ships engaged. Actual attacks on forcigners have been made in Pekin. I. T. Headlaud, professor of mental and moral science at Pekin university, was attacked by a mob and stoned and beaten, and had a narrow escape with his life. In consequence the foreign legations are now guarded by marines from the warships.

The British steamer Pathan, which was seized by the Chinese warship Yan Sheng, has been released on demand of the British minister. The Chinese claim that the Pathan had on beard two cases of revolvers and one of curtridges for Japan. A bond providing for no carrying of contraband goods was given by her owners.

Telegrams to the Japan Mail from Kyoto, under date of Oct. 6, say a great battle was expected to take place at Ku-You within the uext fortnight, and that

the Japanese reconnoitering column has reached the left bank of the Am Nok river. No enemy was seen on the opposite bank at that date. The Japanese army was at Chong-Ju, a distance of 20 miles from the Am Nok.

Bishop Raimonde of South China and prefect apostolie of the Roman Catholie body at Hong-Kong died suddenly of apoplexy on the 27th. Fire at San-Miguel, Maullla, on the

WE LIVED TOO HIGH.

The Excuse an Embezzier Offers For Ilis Crimes.

SPRINGFIELD, O., Oct. 25.—Ex-Police Judge Charles E. Morris' iast words were made public yesterday. John E. Moran, a law student in his office, received a letter from him, written on the day he skipped from here, and dated chimney at the former place, burst the Galion O. It shows the herotoforo un-Galion, O. It shows the heretofore unexplained cause of his peculations, and how badly the man, wno stood so high,

GALION, O., Oct. 17, 1894. JOHN: I have left Springfield never to return. Give Affie (his wife) the inclosed note, and let no one else see it. We lived too high the first four years we were in Springfield. I got in debt and could not get out. Goodhy. God bless yon, God bless yon, and all my friends in Spring CHARLES E. MORRIS.

Frem the fact that Morris made an extended tour of the lakes this summer, he had flight in view when he made the trip. The defaulting treasurer of Pick away county, who fled to Canada eight or nine years ago, was a warm persenal friend of Morris, and many believe it would not be surprising if the, should be found together. Creoked transactions of Morris continue to turn up. A sufferer is Miss Julia Patterson, who gave him \$400 to invest. This he pocketed as he did \$400 Barney Roarick gave him to put in the building and loan as-

Among the sums he borrowed before leaving are: Hon. J. F. McGrew, \$600; Postmaster Wallace, \$50; John J. Sullivan, \$150; C. B. Kissell, \$10; Kmnane & Wren, \$100.

Another theft is just reported. The victim is Mary Hufman of Euon, O., and the amount \$510 She gave it to Morris to put in the building associa-

RUN DOWN AT SEA.

An Unknown Vessel Sunk by the American Liner Paris.

SOUTHAMPTON, Oct. 25.—Between 1:30 and 2 o'clock Tuesday morning the American liner Paris, which arrived here last night from New York, ran down and probably sank an nnknown ship. The weather was very thick 't the time, a licavy rain falling. As soon as the collision occurred the Paris was put about and a search made for the ship. After a time the vessel, or a capslzed wreck, was reported off the starboard, but sight of it was lost before a lifeboat could be lowered. Nothing further was seen, though the Paris lay off searching until daylight. The steamer sustained no damage beyond having a portion of her rail bent and two wire stays broken.

Sailors on the Paris say that the sailing vessel showed signals of distress after the collision, and that scrcams were heard aboard of her. It is stated that a white light was seen on board the ship three minutes before the collision, but that no red or green light was visible until after the steamer had struck her. Captain Watkins declines to make any statement regarding the accident, except to the company officials.

Passengers on the Paris criticise the delay of the steamer in lowering a boat and in getting the searchlight working.

The Czar is Ilrowsy.

LONDON, Oct. 25.—A special dispatch to The Pall Mall Gazette from Moseow says that the czar is suffering from increasing lassitude and drowsiness, and that it is almost impossible to keep him awake except when he is attacked by the nervons spasms which almost amount to convulsions and which add to his exhaustion. On the other hand the sufferer has taken more food and is ablo to retain it.

Nothing of interest happened on the SUCH REPORTED TO WASHINGTON. rente, Searcey was cheerful and seemed relieved that the thing was over. He was lodged in jail.

Judge Ashley of Stafford county is-sued an order naming the jail of Fredericksburg as the place of confinement of Scarcey, and there he will stay until the 21st of November, and where the county court will sit and the grand jury find indictments against the train

Everything Recovered.

New York, Oct. 25.-President L. C. Weir of the Adams Express company was seen yesterday in his office and questioned regarding the recovery of the express pouch at Calverton, Va. President Weir said: "We have not oponed the bag as yet, and of course I do not knew what it contains. But I can tell you now what is should contain. The contents include some bills of lading for cotton and several thousand dollars' worth of railroad receivers' certificates. Of course, the loss on this would be very small, but would cause considerable trouble to our customers and ourselves in replacing them.

We have now recovered everything."

NATURAL GAS BLAZE.

Big Four Railroad Shops flurned at a Loss of Neurly \$100,000.

WABASH, Ind., Oct. 25.-A fire started in the Big Four main shop at midnight, probably from natural gas, and before it was subdued destroyed the sheps, the paint shop and the round-house. A locometive fireman discovered the blaze, and succeeded in saving two locomotives.

The main shops were first destroyed and then the west roundhouse, in which there were seven engines. Of these, feur were ruined. Eight other engines, tive ceaches and a lot of freighteur were moved to places of safety. Two coaches and two cabooses were barned in the repair shops. The total loss will be nearly \$100,000, insured with Cincinnati companies. The fire also are stroyed a lot of tools, and 100 workmen will be temporarily thrown out of em-

FIFTY MILES OF FIRE. Destructive Conflagration Raging in Two Counties in Nebraska.

HYANNIS, Neb., Oct. 25 .- A fearful conflagration has just swept over the sonthern part of Cherry county and the northern part of Grant. The fire has burned over a strip of country uearly 54 miles in width, and destroyed hay stacks, homes and in some instances stocks.

Two men, names unknown, perished in the flames. The hay of a miniter of stockmen was burned and a large space of range ruined. At present the fire is spreading and extending farther north. The destruction of property is great, and a number of stockmen will be rumed financially.

Attorney General Olney Sends Orders to the United States Altorney and United States Marshals at Fort Smith to Endeavor to Prevent Further Trouble-Secrelary Smith's Opinion on the Subject.

Washington, Oct. 25.-The Indian office has received another telegram frem Agent Wilson, at Muscegee, I. T., relating to the troubles experieuced from lawless men in that section. He

"The Cook gang of outlaws in force is camped at Gibson station, eight miles from here, on the Missouri, Kansas and Texas road. It is believed that another holdup is contemplated. My police force, sneh as I get together, is not equal to the emergency, and Marshal Crump, at Fort Smith, Ark., writes that he has no meney to keep the marshals in the field for a campaign. Affairs here are in a desperate condition—commerce impeded, business sus ended and the people generally intimidated and private individuals robbed every

day and night." Attorney General Olney has sent telegrams to the United States attorney and the United States marshal at Fort Smith to do everything legitimately within their power to prevent the interruption of interstate commerce and the detention of the United States mails. If these efforts fall, it is assumed that the military will be called into re-

quisition. Secretary Smith was asked what he shenld recommend to prevent permanently the lawlessness and reign of terror that now exists in the Indian Territory. "Abrogate the treaties; abolish the tribal relations; establish a territorial government, and extend the jurisdiction of the United States over jurisdiction of the United States over the whele territory," he replied promptly. The secretary expressed the opinion that the local self-government of the civilized tribes was a failure thus far. Their legislatures make laws, but there seems to be no way of enforcing them.

Men who had all along been epposed to the course he suggested now saw

to the course he suggested, now saw that there was no other way out of the difficulty. He would see that the Indians were protected in all their property rights, but he would have the United States control suffleiently to rid the territory of the outlaws. If a territorial government were established, judges would be sent there to administer the laws and the governor who was apninted, could see that they were en-

The report of Governor Renfrow of Oklahoma advises the consolidation of the two territories, saying that the whites would then predominate. This being called to the secretary's attention he said that the white people in the Indian Territory now largely predominated, but hey had no voice in the affairs of the government. It was true that in this white population there were many persons who were new eansing trouble, but if the United States had complete territorial jurisdiction over the country, they could be driven out. and the better element would prevail.

The secretary said that the intruders now in the Cherekee country should be drivon out, and that the department would not interfere further in the Silan Lewis case from the Choctaw country and that it is probable Lewis would be

MADE A CONFESSION.

Alleged Chief Conspirator of the Grand Trunk Express Wreck in Court.

BATTLE CREEK, Mich., Oct. 25.—John Bodewlg, the alleged chief conspirator of the Grand Trunk express train wreck of last July, has made a sensational confession regarding that affair. Bodewig was used as a witness yesterday, in the examination of George W. Johnson, another alleged wrecker. Bodewig's story seems to implicate Johnson, Hall, Knowles, Jewett and Vedder.

He admits that on July 10 he and Knowles stole the clawbar with which the fish plates were removed from the track. Between that date and the 15th he talked with several about it, includ-lng those now under arrest. Ho testified, however, that none of the American Railway nnion leaders advised any violence as a means of winning the strike. Johnson's examination was adjourned to Nov. 21. It is rumored that Johnson will divulge who hls assistants in the job were.

Used a While Man For a Shield.

Smithville, Tex., Oct. 25.—Frank Scott, an ex-school teacher, and Charles Chappell, a gambler, both negroes, have been at loggerheads, and yesterday morning they met, when Scott fired at Chappell, missing him. Chappell then caught hold of Ed Turner, a railroad brakeman, and held him in frent of him. Scott shot and hit Turner above the heart, killing him instantly. Scott walked up to Chappell and shot him through the lungs, and he died in about five minutes. Scott made no attempt to escape, and as feeling for a time ran high, was taken to Bastrop, where he is now in jail.

THE Newark (N. J.) Journal says the largest reduction of wages and the worst labor strike ever known in New Jersey occurred during the period between the passage of the McKinley bill and the second inauguration of Cleveland as President. What a "blessing" Republican "protection" was to these workmen!

The editor of the Public Ledger seems inclined to doubt the statement of the BULLETIN that at the Democratic meeting at Dieterich's Grove the other night "crowds stood up fer three hours and a ing began about 7:30 and closed at five minhalf listening to the speeches." The speakutes of eleven o'clock. A gentleman who is a member of the G. A. R. and who has been a goed Republican, but who will vote the Democratic ticket November 6th, was present and can vouch for this.

UNDER Republican "protection" tariffs, the silkworkers at Patersen, N. J., were in a chronic condition of strikes against successive wage reductions; so were other textile workers. The operatives in the cotton thread industry were censiderably reduced in their wages. The hatting industry ln Newark, Orange and elsewhere in New Jersey declined in wage-earning at least 25 per cent. The glassworkers in South Jersey had to accept European wages or make place for imported Belgian workmen. The pottery operatives in Trenton, were reduced all the way from 20 to 30 per cent. cial and industrial depressions come every fifteen or twenty years, citing the panic of 1873. They claimed that "hard times" beat Harrison, and would beat any party in power, that the people were unreasoning and always demanded a change of partles when trade was depressed or wages low. As seen as the Democrats came into power, however, the Republicans changed front at once, and clalmed that the Democratic party was responsible for the hard times, (though it had made ne laws and changed none). Now that the Democrats have repealed the Sherman silver bill and substitued the Wilson tariff bill for the McKinley blll and the good effect of such legislation has restered confidence to our financial interests, and there is a greater activity in business than for the last two years, Republican editors are beginning to claim that the business revival Is because the people believe the G. O. P. will win this fall. It is a tricky party and is still at its tricks.

THE Treasury receipts during the first twenty days of the present month amounted to \$12,874,858, and the disbursements \$20,587,000, leaving a deficit for the twenty days of \$7,702,142. Oh, yes, Br'er Marsh; you'uns are making a splendid record. How the country is prospering under Democratic rule, to be sure!-Public Ledger.

Den't you worry over the condition of the Treasury. Uncle Sam is getting along much better under the new revenue law than he did under McKinley's tariff. It is expected that the deficit for this menth will reach about \$13,000,000, but the deficit for the corresponding period a year ago, when we had a Republican tariff was \$29,000,000, \$16,000,000 more than it will be this year. That's a pretty good showing, is'n't it?

Senater Sherman said in a speech a few days age: "One objection to the Mc-Kinley law was that it did not provide enough revenue to meet the necessary expenses of the Government."

The new law will make things all right, however, before another year rolls 'round. Oh, yes, we're making a splended record.

A Republican Comes Over.

Hen. James D. Butts, of Harper's Ferry, one of the leading Republican politicians and until this year an indefatigable stumper and campaigner, will take the stump for Hon. William L. Wilson. Mr. Butts is a man of ability, and has been a pewer in the Republican party. He has had numerous political positions and candidacies offered him by the Republicans, notably two years ago when they wanted him to run against Mr. Wilson. He was the Republican West Virginia World's Fair Commissioner. His coming to the Democrats is calculated to bring not fewer than 200 voters of his personal following, besides what he accomplishes on the stump.

The above is the interesting information a special brings from Grafton, W. Va.

OUR BEST CUSTOMER

England Took Most of Our Wheat. Cotton and Flour Exports Last Year.

And Yet Republicans Insist on Treating Her as a Public Enemy. Let Voters Read

The Calvert Journal of Fredericktown, Maryland, in a late issue says:

"Last year the United States exported 117,121,000 bushels of wheat and 16,-620,339 barrels of flour. Of this the United Kingdom of Great Britain and wheat and 10,361,000 barrels of flour, equivalent in all to nearly 125,000,000 bushels of wheat. During the samo year 47,000,000 bushels of corn were exported, of which the United Kingdom bought 18,000,000. The total export of cotton was 2,212,000,000 pounds, of which a critical condition from a tumorous Great Britain and Ireland took 1,182,- growth on his neck. 000,000, or more than balf. A vast amount of cattle and meat products were sold, of which the hated British bought nearly all. Of all the other agricultural products sold by the American farmer a great part is sold to Great Britaln.

"The McKinley people told the farmers that if they would stand by the protective policy and foster the manufactures the manufacturers would build up a home market for their products. Under the McKinley bill the wheat crop of Argentina grew up and the price of wheat at Baltimore went down from \$1 a bushel almost to 50 eents. If Great Britain had not bought the great amount of wheat sion. she did, wheat would hardly have been worth harvesting. If she had not bought half the cotton erop, the colored population of more than a half dozen States would have been deprived of their livelihood. In short, without Great Britain as a eustomer the American farmer would have been without any market for surplus products.

"And yet Great Britain is regarded and treated by the Republican press as a public enemy. Why? Because she competes with our manufacturers. Mr. William L. Wilson represents a constituency three-fourths of whom are engaged in agriculture and grazing. And yet he is accused of being unpatriotic for accepting the hospitality of the best eustomer of his constituents!"

Interest in the discovery of oil at the Ruggles camp grounds is still increasing. The directors met on the grounds again one day this week to perfect arrangements to push forward the work stroyed by fire at Parks Hill are being of driving a new well and to go down a good depth in order to reach, if possible, the main body of oil. Some \$550 was subscribed on the grounds, and a number of parties at Tollesboro are negotiating for an luterest. Quite a number in Maysville are asking for stock also, with the understanding and agreement that they get benefit to the amount of their subscription if oil is found in paying, quantities. The driller of the well is taking a liberal share of stock himself, because he is very sanguine of success, and thinks he will strike plenty of oil at CONGRESSMAN A. S. BERRY, of Newport, a depth of 600 feet.

On Tuesday a gentleman came down in a hack from Vanceburg and was driven Hon. John S. Ducker, of Newport, is in to the grounds. He took away with him samples of the oil, but refused to tell who he was or what firm be represented.

The directors are hopeful of either striking a paying flow of oil or gas, or else a good paying mineral well, and they hope the people of Maysville will lend a helping hand, as the camp meeting directors are not able, of themselves, to prosecute the work themselves. The stock is put at \$5 per share, and the holder gets an interest to the amount of ton Webb formerly of the steamer Silver his subscription, whatever the products may, oil, gas or mineral water.

The Czar Reported Better by His Physicians.

A FRENCH PHYSICIAN SUMMONED.

An Operation May Be Performed After a Consultation-Official Dispatches Silent on the Subject of the Wedding-Trouble Predicted Over the Czar's Successor-The Latest News From Livadia.

St. Petersburg, Oct. 25.-A bulletin issued from Livadia at 8 o'clock yesterday evening, and signed by the five doctors in attendance upon the ezar, says:

"During the day his majesty showed no signs of somuoleuce. His appetite and spirits are better. The ocdona of the feet has somewhat increased."

The dispatch says the sacrament was partakeu of by his majesty on Suuday, and this is taken to indicate that his condition is not as serious as would be snpposed from the prior dispatchos stating that the last sacrament of the church had been administered to him. The dispatch that makes this statemont mentioned no dates on which the sacrament was partaken of, and the supposition here now is that the ezar simply partook of holy communion on Sunday, as is his custom.

LONDON ADVICES.

Specials to Several Different Papers Tell the State of Affairs.

LONDON, Oct. 25.-A dispatch to The Times from St. Petersbnrg says that among the various rumors in circulation there is one to the effect that Professor Bergmann, the well known German physician, has declined to go to Livadia to attend the ezar, and that a Fronch physician has been summoned with a view to the possibility of an operation if it be found that only one of his majesty's kidneys is affected.

Detailed accounts are given of the will of the ezar, but nothing authentic can possibly be known beyond the official bulletius. Even the ministers and ambassadors received no other information than is contained in the bulletins. It is true, however, that since the 18th of the current month all the state papers have been sigued by the ezarowitch by the ezar's order.

The minister of finance has telegraphed to the president of the Odessa Exchange begging him to call the bankers and representatives of financial firms together and appeal to them for the absteution, under the circumstances, from all speculation, especially the purchase of gold and also do their atmost to proveut depression of the rouble and state funds.

A seditious proclamation or appeal to the people is circulating secretly through the post here. The origin of the proclamation is unknown, but it is evident that its authors have taken advantage of the exceptional circumstances that now prevail. The document is dated Feb. 19, the anniversary of the emancipation of the Serfs, and is signed "Tho Party of Russian Rights." It demands

The St. Petersburg correspondent of The daily News says that the official bulletins do not represent the gravity of the ezar's condition. Temporary relief by tapping, he adds, means nothing. It is the general opinion that his majesty is already dying. It is known that his unconsciousness lasted several

It is not known whether the wedding of the ezarewitch and Princess Alix occurred or uot. This silence is ominous. It may be that a surgical operation has delayed the eeremony. Persistent ru-mors are in circulation of mournful sick-bed seenes and other touching incidents.

Princess Alix, it is said, is still waging a desperate strugglo against the fauatical zeal of the orthodox elergy, who iusist npon her declaring that the Evaugolieal faith is accursed. princess can not be persuaded that the matter is a more formality, and demands that she may be excused from prononneing the words in question.

The correctness of these rumors can not be vouched for and the fact is only mentioned that they are in circulation and are receiving fresh nourishment from the absence of news about the wedding. However, as news from Livadia generally takes considerable time in coming, news of the marriage may still be expected.

A dispatch to The Daily News from Berlin states, that according to tole-grams received in Darmstadt, the ezar slept woll Tuesday night. Yesterday he joined his family at dinnor. In the afternoon, as it was beautiful weather, he was carried outo the torrace, and lator a family council was hold.

The servants who accompanied Princess Alix to Warsaw, where she met her sister, Grand Duchess Sergius, havo returned to the Russian eapital. At Warsaw there were a number of Russian servants, who entered upon their duties as soon as the princess arrived. It was evidently not wished that the Germans should go to Livadia and bring back with them a knowledge of the state of affairs at the Russian

London, Oct. 25.—The Berlin corrospondent of The Telegraph wires that he hears that it is probablo that only an ecclesiastical betrothal and exchange of rings occurred yestorday between the ezarewitch and Princess Alix. Snoh a betrothal, according to the eastern church, is as indossnlable as a marriage. No announcement of such a ceremony, however, has reached the Russian embassy in Berlin up to this evening.

Sulcide and Insurance.

For some time past there has been considerable disonssion among the offieers of European insurance companies respecting the markod increase in suicides, and the question has been raised whether the elimination from insurance policies of the clause dealing with that subject has not tended to oueonrage self destruction. The leading insurance journal has been collecting the opinions of the principal coroners. They are unanimous that the idea of benefiting their heirs nover enters tho minds of those who take a short and unnatural road to the undiscovered country. Rlley, the Crank, ln a Liospital.

NEW YORK, Oct. 25. - Harry R. Riley, the crank, who has been writing letters to Chauncoy M. Depew, the Vanderbilts, Pullman and numerous Now York and Chiengo society leaders,

THE USE OF ANTITOXINE.

Statistics Showing the Power of the Recent-

ly Discovered Remedy For Diphtheria. In the first report given to the public by the board of health in this city coneerning the use of the so called antitoxine for the prevention or cure of diphtheria it was stated by Dr. Biggs that the record of 250 eases showed that when the injections were made on the first day of the appearance of the disease the recoveries wero 100 per ceut, and that 97 per cent of those treated on tho second day recovered. There are now accessible more detailed statistics coucerning the use of this remedy in certain European hospitals.

For the three years immediately preeeding the application of antitoxine in the Emperor and Empress Frederick's Children's hospital at Berlin 1,081 eases of diphtheria were treated, and the mortality was 40 per ceut. After the middle of last March 128 cases were treated by the application of the new remedy, and the mortality fell to 13 per cent. It should be borne in mind that all these were eases in which the diseaso had become established before the injections were made. The physieians in chargo of the hospital also inoculated 72 children who had been expesed to the disease, and only eight of these afterward had diphtheria, the diseaso appearing in a mild form.

While such statisties may not be eonclusive, they do indicate that a very valuable agent for the treatment of this disease has been discovered. It should not be forgotten that no one claims that the injectious will provent a fatal result when they are made after the disease has become well developed. The sernm of the blood of the immune animal contains a substance hostile to the diphtheritic poison, and it is bolieved that this snbstance, when introduced into the system by subentaneous injection, will overcome and nentralizo the diphthoritio poison if the injectious are made at a sufficiently early date-that is to say, when the antitoxino is thus applied to persons who have been exposed to diphtheritie infection, but in whom the symptoms of the disease have not yet appeared, it is believed to be an effective safeguard, for the poisen in such cases can easily be overcome. This belief is supported by the statistics thus far available. And if the inoculation is made immediately after the appearance of the disease it is almost as effective. But after the disease has become well developed and firmly seated the antitoxino may be powerful enough to retard the progress of it and to ameliorate the suffering of the patient, although it may not prevent a fatal issue. -New York Times.

A Buttermilk Well.

Did you ever see a buttormilk well? I mean a woll that yields buttormilk. No, there are no buttermilk wells about here that I know of, but I saw oue out in northern Indiana onco. It was connected with a croamery. There is no market for buttermilk there, and the inhabitants of the town, who can got all the buttermilk they want for nothing by simply going after it, never toneh it. As fast as the great revolving churns have procipitated their wealth of golden butter the milky residuum is run off into the troughs that load to the buttermilk well. From thence it is pumped up to feed hogs, being distributed by a system of troughs among the pens. Those hogs are merely kopt to utilize the buttermilk, which would otherwise go to waste, and the fatness of these animals so fed defies words. Very little else is given them. Buttermilk pork is said to be superior, especially when supplemented with corn. -New York Herald.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with iess expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquilaxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleas ant to the taste, the refreshing and truly beneficial properties of a perfect luxative; effectually eleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it aets on the Kidneys, Liver and Bowels without weak-ening them and it is perfectly free from every objectionable substance.
